FACT SHEET

WHAT IS THE LA PAZ/MOHAVE REGIONAL PARTNERSHIP COUNCIL GRANT PROGRAM TO EXPAND ACCESS TO PREVENTIVE HEALTH CARE?

First Things First La Paz/Mohave Regional Partnership Council (RPC) has identified that children's good health is integrally related to their learning, social adjustment, and safety. Healthy children are ready to engage in the developmental tasks of early childhood and to achieve the physical, mental, intellectual, social and emotional well being necessary for them to succeed when they reach school age.

The La Paz/Mohave Regional Partnership Council had identified the need for regional implementation of the following strategy:

Expand or establish new programs to support children's access to the following quality preventive health care services:

- Prenatal care
- Developmental screenings
- Well-child checks
- Oral health care

Access to appropriate and timely preventive health services that begin before the child is born and include screening and early identification for developmental milestones, vision, hearing, oral health, and social-emotional health are necessary to ensure children's healthy development and well-being.

The La/Paz Mohave Regional Partnership is inviting individual agencies or collaborative partnerships to present innovative and creative ways to expand access to quality preventive health care services for pregnant women and children age birth to five.
